My Safety Plan

Fill it out on a calmer day, so it's ready when you need it

UNDERSTAND IT

A safety plan is a short list you make ahead of time, so you don't have to rely on memory when stress is high. Start at the top and work down, one step at a time. You don't have to wait until things are severe. A plan works best early, when you first notice yourself shifting.

MY EARLY SIGNS THAT I'M STRUGGLING

What I notice in my thoughts, body, or behavior

WHAT HELPS ME FEEL GROUNDED

Skills, tools, or routines that support me

PEOPLE I CAN REACH OUT TO

NAME	HOW I REACH THEM

WHAT I CAN DO IN THE MOMENT

WAYS I CAN MAKE MY SPACE SAFER

Spaces, objects, routines, or boundaries

One sentence I want to remember during hard moments:

CRISIS SUPPORT

Call or text 988	Suicide & Crisis Lifeline	My local crisis line:
Text HOME to 741741	Crisis Text Line	My emergency contact:
Call 911	If you are in immediate danger	Nearest ER:

Outside the U.S.? Look up your country's crisis line and write it on your plan.
